

**Blueprint Medicines™ is committed to providing your patients access to the
GAVRETO™ (pralsetinib) you prescribe them.**

The Case Managers at YourBlueprint™, Blueprint Medicines patient support services program, are ready to help connect eligible patients with financial assistance options depending on their insurance coverage situation. Visit YourBlueprint.com/HCP to see our commitment in action or call 1-888-BLUPRNT (1-888-258-7768) to speak to someone live.

Pricing Information for Colorado Prescribers

In accordance with Colorado law, H.B. 19-1131, the Wholesale Acquisition Cost (WAC) for a 30-day supply of the 400 mg starting dose for GAVRETO is \$19,243.20.

Generic versions of GAVRETO are not currently available.

WAC represents the manufacturer's published catalog or list price for a drug product to wholesalers or distributors, as reported to third-party drug price compendia by the manufacturer. WAC does not represent actual transaction prices and does not include discounts, rebates, or other reductions in price.

In many cases, the price paid by patients for GAVRETO will be different from the GAVRETO's reported WAC. How much a patient will pay will depend on the patient's insurance coverage. To determine the exact cost of a prescription, patients should contact their health insurance provider or specialty pharmacy.
